### Palm Blaster

Price: Cr220

Comment: "Perfect for the Snod table."

### Kinetic Pistol

## **Blaster Rifle**

Price: Cr1,300

## **Arcdagger**

Price: Cr800

---

## Stun Grenade

Price: Cr900

## Hazard Suit

Price: Cr1,200

## Space Suit

---

---

## Field Equipment

---

### Personal Communicator

### Datatab

---

## Power Cell, Compact

Price: Cr60

Comment: "With how long these last, I'm surprised I still sell any. And all for the price of a deckhand's day wage."

## Holster

## Suppressor, Kinetic Pistol

---

## Atomic Lamp

Price: Cr100

Comment: "It's amazing what something as basic as atomic fusion can do."

## Lumen Rod

Price: Cr70

## Breather Mask

Price: Cr100

Comment: "Filters the air, keeps the lungs happy, and makes you sound mysterious. Try not to scratch the seals with your stubble, Captain."

## Replacement Parts Package

## Portable Scanner

---

### Motospeeder

Price: Cr3,500

Comment: "Watch out for those motospeeder 'club' members at the cantinas."

### Groundspeeder

---

## Atmospeeder

Comment: "You can take her into the upper clouds, sure. Just don't forget to come back down."

## Atmohauler

Price: Cr70,000

Comment: "For shipping heavy cargo and mining on planet. The drive coils need regular tuning, but a well-kept hauler can serve a colony for decades."

---

---

## Starships

---

Comment: "Sure, Captain. I can give you more information for these. They are a bigger investment after all. These are all new, by the way. I'm no used ship sales-Birin."

## Orbital Shuttle

Price: Cr130,000

Hyperdrive Grade: n/a

Comment: "Designed for short hops and station runs. Hyperdrive mount's standard, but don't expect it to come with one at this price. Still, not too bad for crawling around in the system."

---

## Light Courier

Price: Cr230,000

Hyperdrive Grade: 2

Comment: "She's basically the shuttle with a hyperdrive. Not quick, but give her long enough and she'll take you there just the same."

## Interceptor

Price: Cr400,000

Hyperdrive Grade: 4

Comment: "Built to chase smugglers, pirates, and sometimes its own shadow. Light frame, overclocked thrusters, and barely enough living space to stretch."

## Light Freighter

Price: Cr600,000

Hyperdrive Grade: 4

Comment: "Workhorse of half the galaxy. Big enough to haul something worth selling, small enough to still be personal. Keep her fed and she'll forgive you, most of the time."

# Light Frigate

Price: Cr4000,000

Hyperdrive Grade: 5

Comment: "Frigate-class ships are where business turns into commitment. Crews, logs, and repair bills all multiply overnight. But she can stand in a fight, cross a sector, and make a name for whoever's mad enough to command her. Also the biggest I can sell you, Captain. Still waiting on permits for capital ships."
